Discussion Questions: Genesis 2:4-25

1. What do you think the difference is between the creation of man (verse 7) and the creation of the wild animals and the bird (verse 19)? What do you think God's breath of life into man has to do with man being created in the image of God?
2. If the triune God created man in his own image (male and female he created them), what does this suggest about the difference between men and women since the triune God is distinctly different yet in total unity and agreement? What do you think this has to do with verse 24 ("and they become one flesh")? For a deeper discussion read Ephesians 5:21-33 & 1 Peter 3:1-7.
